

Press Release

Management Health Solutions to Exhibit at HIMSS 2018 Intelligent Health Pavilion™

Will Feature Cost-Saving OR Resource Utilization Analytics Solution

Stratford, CT – February 5, 2018 – Management Health Solutions, Inc. (MHS) will be exhibiting at the HIMSS 2018 Intelligent Health Pavilion™ to be held in Las Vegas from March 5th to 9th. The company will be demonstrating its Case Cost 360™ software that captures and analyzes comprehensive resource utilization and costs by procedure, by physician, in real-time, and across the surgical workflow including at point of use. The solution will be showcased as part of an integrated operating room presentation by several companies illustrating various technologies that convert data into intelligence to drive cost savings, operational efficiencies and patient safety.

Case Cost 360 combines mobile case cart and point of use utilization tracking software with an analytics engine that provides detailed cost variance analysis to help deliver major cost reduction and operational improvement opportunities in:

- ***Preference Card Optimization.***
- ***Product Standardization Across Physicians.***
- ***Physician Benchmarking and Scorecards.***

MHS will also be presenting in the pavilion theater on Tuesday on the subject of “Analytics to Maximize Surgical Profitability.”

Creating an integrated space with nearly 100 proven healthcare technologies and solutions covering many high-impact use cases, the Intelligent Health Pavilion educates healthcare professionals on the adoption of new technologies. It is located at the Venetian-Palazzo-Sands Expo Center, Hall E, booth 11657. The HIMSS Annual Conference & Exhibition brings together 45,000 health IT professionals, clinicians, executives and vendors from around the world.

About Management Health Solutions

Management Health Solutions is a technology and services company offering solutions that give customers a unique Clinical Operations Decision Support system. Through capture and analysis of comprehensive procedural utilization data, healthcare providers gain insights they need to reduce spend and drive efficiency in clinical operations. The company builds its solutions by combining advanced technology with a modular suite of on-the-ground outsourced and advisory services in procedure cost management, master data management, and inventory valuation.

Case Cost 360™ is the flagship analytics product generating sophisticated procedural cost understanding. The company’s mobile technology is deployed in hundreds of hospitals and integrated delivery systems from the warehouse floor to the operating room. Learn more at mhsinc.com.
